

Senior Research Manager

Clusters, an innovative quantitative market research and segmentation agency, is looking for an accomplished and organised Senior Research Manager, full time, with experience in processing data using advanced statistical and modelling techniques and the ability to conduct research projects from start to finish.

Key responsibilities

- Take a client brief and propose the research design to best meet their objective
- Ensure the project is aligned to solving the client's business issues
- Lead field research on ad-hoc quant research projects and trackers
- Be the main point of contact for client communications
- Support senior team in developing and implementing new work processes and procedures
- Analyse and interpret research results in to actionable recommendations
- Design and script questionnaires

Experience and skills required for this role:

- Highly organised with 5 years+ in a similar role
- Worked in a large well organised research agency
- Strong client management skills
- Leadership skills
- Problem solving and ability to think laterally
- Want to develop their managements skills
- Excellent written skills
- Strong attention to detail
- Proactive and able to demonstrate initiative
- Not afraid to put ideas forward

Benefits

- Salary of £45k per annum
- Statutory pension scheme
- 25 days' annual holiday + 8 bank holidays
- Excellent location right by London Bridge and Borough Market
- Fresh fruit, bread and cereals daily (plus pastries on Fridays)
- Extensive training and development programme

How to apply:
